About Me

Results-oriented professional with nearly 10 years of experience in inventory control, operational audit, finance, and commercial operations across retail and distribution industries. Proven track record in leading inventory governance and process improvement initiatives, supporting 76 outlets and 10 brands nationwide while reducing inventory variance from over 6% to below 3%. Skilled in SAP, Accurate, SQL, Python, and advanced spreadsheet tools, with strong analytical, problem-solving, and cross-functional collaboration abilities to drive operational excellence and business performance.

Education

Universitas Katolik Darma Cendika, Surabaya

Aug 2012 - Jul 2017

Bachelor, Economic | GPA: 3.22

Working Experiences

Internal audit | Deus Ex Machina

Jan 2026 - Present

- Analyzed inventory movements and stock discrepancies for 600+ SKUs across 11 retail stores, strengthening inventory accuracy and improving stock control effectiveness.
- Validated quarterly stock opname results for inventory assets valued at IDR 500 million–1 billion+ per store, ensuring reliable inventory records for operational and financial decision-making.
- Developed inventory variance reports and presented findings to management, enabling timely corrective actions and reducing risks associated with stock inaccuracies.
- Monitored inventory transactions, stock adjustments, vendor goods receipts, and compliance activities for 2 strategic suppliers, ensuring data integrity and supporting continuous operational improvements.

Sales Administration | PT Tumbakmas Niaga Sakti

Nov 2023 - Dec 2025

- Managed end-to-end order-to-cash processes for 64 customers across 4 sales channels (Retail, Wholesale, Modern Trade, and Sub-Distribution), ensuring accurate order fulfillment and compliance with company procedures.
- Processed and validated 150+ sales transactions monthly, handling order values ranging from IDR 200 thousand to IDR 130 million per transaction, while maintaining documentation accuracy and operational efficiency.
- Reviewed customer receivable status and coordinated daily with Sales, Collection, and Accounts Receivable teams to support credit control decisions and mitigate payment risks prior to order release.
- Collaborated with warehouse teams on inventory stock takes and inventory reconciliations, supporting inventory accuracy and operational reliability across business functions.

Professional Development | Business & Data Analytics (Self-Study)

Jun 2023 - Oct 2023

- A Completed intensive self-study in SQL, Python, data analysis, and data visualization.
